2 Hour Workshop: Getting to know you camera

Course Description:

In this workshop you will explore the different features and modes of your camera, to understand how to best use them to improve your photography. The class will take you away from using auto mode into the other creative modes.

What you will learn:

You will learn how the different features and modes of your camera will affect the pictures that you take and which mode or feature is best suited to the conditions that you are taking pictures in. Such as the different Scene modes or aperture and shutter priority.

Topics covered:

- What the different buttons are and what they do
- What the different settings are and what they do
- Scene mode
- Program Mode (P)
- Shutter priority mode (TV)
- Aperture priority mode(AV)
- Manual mode (M)
- ISO settings

Duration:

2 Hours

Cost:

£60
